

## PUBLIC NOTICE

Riverbend Construction Materials has applied to the Tennessee Air Pollution Control Division (TAPCD) for a [federally enforceable state operating permit](#) to opt out of being subject to the provisions of paragraph 1200-3-9-.02(11) of the Tennessee Air Pollution Control Regulations (also frequently referred to as Title V regulations). Riverbend Construction Materials has agreed to be bound by a permit that limits their potential to emit for nitrogen oxides (NOx) such that they are below the applicability threshold of 100.0 tons per year. Riverbend Construction Materials has also agreed to use record keeping to prove that they are abiding by more restrictive emission limits.

The applicant is Riverbend Construction Materials with a site address of Highway 92, Jefferson City, TN, 37861. They seek to obtain a federally enforceable state operating permit for operation of their rock crushing and screening operation consisting of a feeder, crushers, screens, conveyors, hoppers, pugmill, and three (3) diesel engine generators.

The TAPCD has made the determination that this facility can be approved to opt out of being subject to Title V regulations if certain conditions are met. A copy of the materials used by the TAPCD in making this determination and a draft copy of the proposed permit are available for public inspection during normal business hours at the following locations:

Bean Station Public Library  
895 Broadway Drive  
Bean Station, TN 37708-0100

and

Tennessee Department of Environment and Conservation  
Division of Air Pollution Control
